OUR CONNECTED FOCUS

01

LIGHTING

Public lighting and smarter operation.

02

ENERGY

Solar power and energy storage solutions.

03

SAFETY

Video-based visibility and public-space safety.

04

CONNECTIVITY

Field data, networks and monitoring.

**Integrated thinking.
Project-focused delivery.**

One partner. A connected project.

01 Integrated thinking

Coordinate the solution around the project,
not around a single product.

02 Technical coordination

Align specifications, interfaces and supply
scope before project delivery.

03 Long-term partnership

Support documentation, local partners
and future system expansion.
